**SHOW STOPPER** — The Wednesday night showing at the Starlight Drive-In, south of Holland on US-31, was ended before it began as a giant gust of wind ripped the big screen from its frame about 8 p.m. It was too early for the show, but 17 cars had already entered the drive-in and were waiting for show time when the wind came up and the screen went down. One of the autos was struck by part of a fence that was also blown over. No one was injured. Drive-in manager Fred Gardner said today he had no estimate of damage and did not know how long the theater would be closed. (Sentinel photo)

## .77 Inch of Rain Falls on Holland

Additional showers, accompanied by thunder and lightning, fell on Holland Wednesday evening, bringing the day's total rainfall to .77 inch.

The rainfall, described as "beneficial" by Park Supt. Jacob De Graaf, provided much needed moisture to local lawns and farm crops.

Although Holland was included in the alerted section for severe weather warnings, the predicted hail bypassed the urban area and concentrated more on the Saugatuck-Douglas area.

The Holland Board of Public Works, Michigan Bell Telephone Co. and Consumers Power Co. reported little or no damage caused by the storm.

At the Ottawa County Fair, people sought shelter in their cars during the rainfall and then returned to fair activities after the rain subsided. Horse races were cancelled and extra races are scheduled tonight.

## New Pipeline Progressing For Zeeland

ZEELAND—Rainfall Wednesday brought some respite for heavy water demands in Zeeland, but water supplies remained low and sprinkling bans continued in effect today.

City Utilities Manager Martin Hietje looked forward to relief from short supplies later in August when the new water pipeline from Holland will be completed. He expected the construction work would be completed in a week to 10 days after which tests will be made for another week or more.

Meanwhile, work is progressing on a new water reservoir for 1,250,000 gallons of water which when completed will rise 60 feet, capped by a rounded top.

Zeeland has been under sprinkling bans in the summer for several years. Such bans will be lifted when water is available from Holland perhaps after the middle of August. Hietje said water can be pumped directly into the mains for a while, bypassing the new reservoir now under construction.

Water supplies were critical last Monday when pressure dropped to 39 pounds and the city was forced to pump water from its underground reservoir to provide proper pressure.

According to the agreement with the Holland Board of Public Works, Zeeland is purchasing water from Holland at off-peak periods. Zeeland's water rates were hiked last February from \$5.25 to \$6 minimum for residential users with comparable hikes for other users. The new \$6 minimum for a three-month period is expected to be sufficient to meet all financial obligations and no new increases are anticipated, Hietje said.

Zeeland city retained the services of Black and Veatch, consulting engineers who also designed Holland's water supply system involving a pipeline to Lake Michigan some years ago. Black and Veatch also conducted the rate study leading to the new rates.

## Auto Rams Truck South Of Holland

Second Car Collides With Wreckage; Two Vehicles Total Losses

A Holland man was listed in critical condition at St. Mary's Hospital in Grand Rapids Saturday morning where he was transferred after emergency treatment at Holland Hospital following a three-vehicle accident at US-31 and 144th Ave. A second man was admitted to Holland Hospital for injuries.

Critically injured was Duane Rex Webbert, 37, of 228 168th Ave., who was still under treatment at the intensive care unit of the St. Mary's Hospital Saturday.

Also injured and in fair condition at Holland Hospital was Roy Douglas, of 430 Pine Ave. Douglas was treated for a deep cut above the eye and multiple bruises on the body and arms.

Allegan County sheriff deputies who investigated the accident were unable to determine who was driving the car which clipped a grain truck in passing it on US-31 about 2:30 this morning.

Driver of the truck, James B. Bouws, 25, of route 1, was not injured. Deputies said a third vehicle, a car driven by Ralph L. Pettis, 35, of 1055 Lincoln Ave., collided with the wreckage of the first two vehicles. Pettis was not injured. All vehicles were going north when the accident occurred.

US-31 was blocked to traffic for a short period of time following the accident while men scraped wheat off the highway which had fallen from the truck in the collision and until the car driven by Pettis was removed from the highway.

Both cars in the accident were extensively damaged. The top of the car which was occupied by Webbert and Douglas was sliced off the car and laid about 200 feet from the car.

## Recover Body In Big Lake

The body of a 29-year-old Plainwell man, missing since last Saturday afternoon, was recovered from Lake Michigan, a mile south of the entrance to Holland Harbor, at 7:30 p.m. Tuesday.

Chief Paul Divida, commanding officer of the Holland Coast Guard Station, said the body of Roderick Bailey Jr., was found floating about 200 yards offshore by a group of water-skiers. Bailey's body was found near where he reportedly fell from a cabin cruiser about 4 p.m. Saturday.

The water skiers reported finding the body at a nearby cottage, and the Coast Guard was called. Divida said Dr. Warren Weststrate was the medical examiner. The body was taken to the Dykstra Funeral Home.

Dragging operations by the Coast Guard and Ottawa County Sheriff's water patrol were curtailed Sunday by rough water. Divida said periodic checks of the area were made Monday and Tuesday but extensive dragging was impossible because of the vagueness of the location at which Bailey fell into the water.

No one had seen him fall off the boat, Divida said. Three other occupants of the boat were in a forward cabin when the mishap occurred, and as much as five minutes could have elapsed before it was discovered that he was missing.

Bailey, along with Mr. and Mrs. Edwin Otto and Robert F. Fry, all of Plainwell, was a joint owner of the 26-foot cruiser. The Ottos and Fry were also on the boat when the accident occurred. The group had been en route from South Haven to Muskegon.

## A WAY (AWAY) WITH WORDS

We often tend to forget it, but  
man's most important discovery  
up to now was made countless  
ages ago - language. Whatever  
social progress the human race  
has been able to achieve is in  
direct proportion to man's ability  
to express himself accurately and  
to communicate with his fellows.  
One will find that sophisticated  
cultures are dependent on sophis-  
ticated language and that primitive  
cultures struggle along as well as  
they can with primitive communi-  
cations.

But it is typical of people that  
the more familiar they are with  
things, the less careful they are  
about them. Perhaps this explains  
why we take such infinite pains  
when we put a man into space,  
but are increasingly careless about  
our use of language.

Writing in the "Harvard Alumni  
Bulletin" some time ago, Edwin  
A. Locke, Jr., comments, "It  
seems to me that I have heard so  
much misuse and abuse of the  
English language by people occu-  
pying responsible positions in  
recent years . . . I would go so  
far as to say that verbal incompe-  
tence is threatening to become  
a chronic disease of the American  
intellect." He illustrates his thesis  
with several anecdotes which show  
the prevalence of this incompe-  
tence in both public life and busi-  
ness. He tells of a Congressman  
who shocked a group of Asiatic  
visitors by referring to Americans  
as an "aggressive" people. He  
meant to say, no doubt, that we  
are courageous, vigorous, and am-  
bitious. But his audience took him  
to mean that we are warlike. The  
effect on international relations of  
such verbal inaccuracy is obvious.

He tells also of a letter written  
by the sales manager of a well-  
known company to a customer.  
The letter explained why a certain  
salesman has left the company.  
The sales manager was angry at  
the salesman for quitting and in  
his letter he said, "It's just a case  
of a rat leaving the ship." He failed  
to remember that it is the  
sinking ship that rats desert. But  
this thought came to his customer,  
and he mentioned it to others.  
Soon people were gossiping that  
the company was in trouble. It took  
an investigation to unearth the  
source of the rumor, and a good  
deal of effort to undo the dam-  
age that had been done. The head  
of that company figured the cost  
of that one little misused cliché  
at about \$10,000."

Certainly it is true, as those in  
academic circles will testify, that  
there is an almost unshakable re-  
luctance among high school and  
college students to discover the  
precise meanings of words by con-  
sulting dictionaries. Most students  
are completely satisfied with the  
"general idea" and have no urge  
to make sure of exact understand-  
ing.

Perhaps it is the growing impor-  
tance of the symbolism of mathe-  
matics, that instrument which per-  
mits us to know so much of the  
natural world in which we live, that  
accounts for the diminished con-  
cern with the precise meanings of  
words. We should remember, how-  
ever, that mathematics allows us  
to deal with things, but language,  
because it is both intellectual and  
emotional, is the only means by  
which we can deal successfully  
with people.

Collection Slow  
For Summer Taxes

With little more than two weeks  
remaining for residents to pay  
their 1963 school and city taxes  
without penalty, the City Treasur-  
er's office has received only one-  
third of the revenue expected from  
this summer's collection.

City Treasurer Jack Leenhouts  
said that with this slow rate of  
collection taxpayers might find  
themselves waiting in line if they  
put off payment until the last  
week.

Taxes may be paid through Aug.  
15 without penalty. After this date  
taxpayers are penalized two per  
cent of their total tax bill. After  
September 10 the penalty is six  
per cent of the original bill.

The Venture of Faith  
Gen. 12:1-9  
By C.P. Dame

Three religions hold Abraham  
in high regard—Judaism, Moham-  
medism and Christianity. The Bible  
calls him the Friend of God and  
Christians call him the Father of  
all believers. Through Christ, a  
descent of Abraham, God blessed  
the whole world. In this lesson  
we note his faith.

I. God calls men.  
The Bible records the stories of  
several people whom God called.  
Abraham was a Babylonian, living  
in Ur of Chaldees, which was the  
most cultured city of the world at  
that time. God called him to do  
something drastic—to leave that  
city and go to a country he would  
show him.

God not only gave him a com-  
mand but also made him a prom-  
ise. Observe that God told him  
to give up something and made  
a promise that he would do some-  
thing for him.

Genesis records eight different  
appearances God made to Abra-  
ham and in every one of them God  
mentions the promise. This prom-  
ise includes that God would make  
of him a great nation and gave  
him the land of Canaan, would  
bless him and make his name  
great.

The Biblical ideal is that they  
who are blessed become a blessing.  
This is the Christian conception  
today. When God made these prom-  
ises to Abraham he was a man of  
years and childless.

II. A man of faith responds to  
God's call.

"So Abram departed, as the  
Lord had spoken to him." Re-  
nouncing everything he left home  
and kindred and began his jour-  
ney. It was his faith that made  
him do that. "By faith Abraham  
obeyed when he was called."

Lot went with Abraham but this  
nephew did not have his spirit.  
Relatives often differ.

When Abraham came to Canaan  
he discovered that "the Canaanite  
was then in the land." They were  
religious but idolaters—their reli-  
gion corrupted them. The world in  
Abraham's day was in a sad situ-  
ation.

III. People of faith witness.  
It is mentioned in our lesson  
text that Abraham built an altar  
and thus witnessed to his faith.  
Abraham took his religion with  
him.

Some church members do that  
today and some do not. Far too  
many church members conform in  
these days according to the stand-  
ards of the community. It takes  
courage to be different. Abraham  
did not permit the community to  
mould him. He showed by build-  
ing an altar that he belonged to the  
true God.

It is good to remember that  
non-conformists make history—not  
the kind of people who float with  
the stream. In these days the  
world needs people who have the  
courage and the spirit of Abra-  
ham.

What about your home? Is it a  
witnessing home? And what about  
you—are you a witnessing Chris-  
tian?

## Village Square Projects Proving Profitable Here

The statement, "Never underestimate the power of a woman," might have been written to describe the efforts of thousands of Reformed Church women who have pooled their ingenuity and resources to make the 1963 Hope College Village Square, being staged on the local campus Aug. 2, the largest and most profitable of their money-raising ventures to date.

In Holland these women comprise the membership of the Hope College Women's League which is sponsoring the seventh annual Village Square. Their aim is to raise a total of \$100,000 to pay for their current project—the furnishing of the college's Van Zoeren Library.

The Women's League undertook this project two years ago when the million-dollar library was opened to the college's 1500 students. To date they have raised \$33,000 of their goal.

President of the Holland chapter of the league, Mrs. Kenneth Bauwman, 11630 Adams St., predicts that this year's events will top last year's Village Square proceeds of \$14,431.

The current project is just one of several these zealous women have undertaken over the past 40 years aimed at mustering financial as well as moral support for the college from the women of the Reformed Church.

Since 1950 alone the group has raised nearly a third of a million dollars to pay for its ambitious projects.

The Women's League for Hope College was originally organized by a small group of Holland women who were interested in making Voorhees Hall, the first women's dormitory on the campus, a more home-like and pleasant place for its coed residents.

In 1927 these women undertook their first project and raised \$343 to furnish the Voorhees lounge. This sum sounds minute when compared to the present goal of \$100,000 currently being raised to pay for the library furnishings.

It wasn't until 1950 that the league understood its first major project—the furnishing of Durfee Hall, a 100-woman dormitory which opened that year.

With the expansion of the League membership to church women in Indiana, Illinois and Wisconsin, the League's \$35,000 project was easily accomplished.

Immediately upon retiring this debt the women assumed a new program of redecorating and refurbishing Voorhees Hall at a cost of \$25,000.

When in 1956 the college undertook the construction of Kollen Hall, a million-dollar men's dormitory, the Hope College Women's League bravely stepped ahead and undertook another project of rais-

ing \$60,000 to furnish the 300-man dormitory.

The same story was repeated when Phelps Hall, a million-dollar women's dormitory was built in 1960 and furnished at a cost of \$60,000 by the League.

At this year's Village Square the women of Holland will be in charge of the morning coffee, lunch, and social. Square co-chairmen for Holland are Mrs. Willis Oosterhof, 751 Central, and Donald Thomas, 748 Central.

## James Van Eden Weds Barbara Gayle Dozeman

Mrs. James Van Eden

The First Reformed Church parlor in Zeeland was the scene of the wedding Saturday afternoon of Miss Barbara Gayle Dozeman and James Van Eden, both of Zeeland. Bouquets of white flowers decorated the fireplace before which

the Rev. Adrian J. Newhouse performed the double ring ceremony for the daughter of Mr. and Mrs. Jerald Dozeman of 1797 South State St., Zeeland and the son of Mr. and Mrs. George Van Eden of 44 South Taft St., Zeeland.

The bride, given in marriage by her father, selected a ballerina length sheath organza made with three-quarter sleeves, oval neckline appliqued with Venice lace, bouffant overskirt fastened with a bow. In her hair she wore an organza rose with a brief veil of English tulle. She carried a small colonial bouquet.

Miss Marsha Sue Dozeman, sister of the bride, her attendant, wore a ballerina length gown of azalea organza, made with an oval neckline, three-quarter-length sleeves and a belted skirt with gathered back fullness centered with a bow and streamers. A matching azalea organza bow adorned her hair. She carried a basket of flowers.

The bride's mother chose a delicate pink embroidered sheath with matching accessories. The groom's mother wore a two-piece green silk dress. Each wore a white carnation and sweetheart rose corsage.

Donald Van Eden attended his brother as best man.

Immediately following the wedding the couple greeted 125 guests at a reception held at Van Raalte's in Zeeland. Reception attendants were Mr. and Mrs. Gene Immink, master and mistress of ceremonies, Miss Peggy Huyser and Jon Berghorst poured punch. In the gift room were Mr. and Mrs. Preston Vereeke and Miss Audrey Nienhuis and Jerry Nagelkirk. Tim Dozeman, brother of the bride, attended the guest book.

For the wedding trip to Northern Michigan, the bride changed to a berry colored sheath with patent accessories. She wore a corsage from her bridal bouquet.

The bride, a graduate of Zeeland High School, is employed in the office of Hart & Cooley Mfg. Co. The groom, also a Zeeland High School graduate, attended Ferris State College and is presently employed at Hansen Machine.

Following the wedding trip the couple will be at home at 182 West 19th St., Holland.

Zeeland merchants approved a new decorating scheme for downtown stores at a Chamber of Commerce meeting last Tuesday night. The color plan was submitted by professional decorator Mrs. Florence L. Pohler of Dayton, Ohio.

In preparation for the color planning a local committee took color photographs of all downtown store fronts. The pictures, along with identifying information in regard to the store name and kind of business, were submitted to Mrs. Pohler for study.

Mrs. Pohler then submitted a plan of basic colors and trim for each building or groups of stores comprising a building unit. Mrs. Pohler has served as color consultant on several retail area projects similar to Zeeland's "1970 Plan" renovations.

## Ottawa County Farm News

By Richard Hachle Extension Service Agriculture

Cereal leaf beetle is much in the force this week. We finally had someone bring in a beetle caught in the field. This particular one comes from an alfalfa field. We have also had an evidence that the beetle is working on corn. John Saylor in charge of aerial leaf beetle work in the area reports that aerial spraying has been done in northern Ottawa County over the last week. We would appreciate hearing from anyone who locates a suspicious beetle so as to better set up control measures. This beetle is very small, about ¼" long with a bronze body, orange colored head and legs.

We had an interesting note on milk production. Production in the U.S. has been running 1 per cent below last year with 2 per cent fewer dairy cows on farms. The trend to increased grain feeding continues, but pasture conditions on July 1 were not very favorable. Milk prices will continue about the same as last year.

A revised bulletin, Extension Folder F-300 is available, Casual Home-Invasive Pests. This covers control of Beetles: Lady Beetles ("ladybugs"); Snout beetle (Scaphisoma muricatus); Strawberry root weevil; Centipedes, millipedes, sowbugs; Field crickets and wood cockroaches; Mites and Spiders.

A meeting of interest to some of our readers will be held at Michigan State University campus on Sept. 5. The Livestock Health Council in cooperation with Poultry and livestock departments and College of Veterinary Medicine will sponsor a livestock health day on M.S.U. campus Thursday, Sept. 5. Dairy and other livestock groups will have separate morning sessions during the forenoon, with a joint session for lunch and afternoon program. The Livestock Health Council will hold their annual meeting following adjournment of the general session. Details of the program will be publicized soon.
